Bedford County's first winery and Virginia's first fruit winery is nestled at the foot of the Peaks of Otter where the Johnson family continues the farming tradition that their ancestors began there in the 1700's. They are open year round and make 25 varieties of wine, primarily from the fruits that they grow. During the season, you may sample fruits, from which the wines are made, as well as jams, jellies, and butters. The facilities and farm are always welcoming to guests and families and they are available to host special events such as weddings and parties. Call for details, events and hours.
