

Sec. 30-82-3. Home occupations, Type I and Type II.

- (a) *Intent.* These provisions are adopted in recognition that certain small-scale commercial activities may be appropriate accessory uses within residential dwellings. The character and scale of such commercial activities must be subordinate and incidental to the principal use of the premises for dwelling purposes, and must be consistent with the predominant residential character of the property and/or surrounding neighborhood. In addition, these provisions are intended to limit the size of such home occupations so as to not create an unfair competitive advantage over businesses located in commercially zoned areas.
- (b) *General standards:*
- (1) More than one (1) home occupation may be permitted provided the total maximum floor area requirement is not exceeded. The maximum floor area permitted for a home occupation shall be twenty-five (25) percent of the finished floor area of the dwelling unit. An accessory building or structure may be used with the home occupation, provided the total floor area devoted to the home occupation in the accessory structure and dwelling unit combined does not exceed twenty-five (25) percent of the finished floor area of the dwelling unit. Storage of goods or products shall not exceed ten (10) percent of the finished floor area.
 - (2) No dwelling or structure shall be altered, occupied or used in a manner which would cause the premises to differ from a character consistent with a residential use. The use of colors, materials, construction, lighting, or other means inconsistent with a residential use shall be prohibited.
 - (3) There shall be no outside storage of goods, products, equipment, or other materials associated with the home occupation. No toxic, explosive, flammable, radioactive, or other hazardous materials used in conjunction with the home occupation shall be used, sold, or stored on the site. The sale of firearms and ammunition shall be permitted as a home occupation.
 - (4) The type and volume of traffic generated by a home occupation shall be consistent with the traffic generation characteristics of other dwellings in the area. In addition, the lot or property on which the home occupation is conducted shall not have any parking spaces added to it during the time the home occupation is being conducted, nor shall any parking space be used that was not customarily or regularly used prior to that time.
 - (5) The home occupation shall not increase demand on water, sewer, or garbage collection services to the extent that the combined demand for the dwelling and home occupation is significantly more than is normal to the use of the property for residential purposes.
 - (6) No equipment or process shall be used in a home occupation which creates noise in excess of sixty (60) dB(A) measured at the property line, or vibration, glare, fumes, odors, or electrical interference detectable to the normal senses off the premises or through common walls. In the case of electrical interference, no equipment or process shall be used which creates visual or audible interference in any radio or television receivers off the premises or through common walls.
 - (7) No activity in conjunction with a home occupation shall be conducted before 7:00 a.m. or after 10:00 p.m. that adversely impacts or disturbs adjoining property owners.
 - (8) One (1) person who is not a permanent resident of the dwelling may be engaged or employed in the home occupation.
 - (9) Lessons in the applied arts shall be permitted, provided the class size for any lesson does not exceed five (5) students at any one time.
- (c) *Additional standards, Type I home occupations:*
- (1) The home occupation shall not involve the commercial delivery of materials or products to or from the premises.

- (2) There shall be no display or storage of goods or products visible from the public or private right-of-way or adjacent property.
 - (3) Baby sitting for five (5) or less children shall be permitted.
 - (4) No sign may be placed on the property advertising the home occupation.
 - (5) No advertising through local media, including telephone books, and flyers shall call attention to the residential address of the home occupation.
- (d) *Additional standards, Type II home occupations:*
- (1) One (1) non-illuminated sign, a maximum of two (2) square feet in area, shall be permitted per dwelling, regardless of the number of home occupations within the dwelling. Any sign must conform with the provisions of article V of the zoning ordinance.

(Ord. of 6-10-2013, pt. VII)
